

Most Nutritious Confinement Food Delivery Service

delivering goodness

Nutritional goodness of confinement food delivered right to your doorstep

Thomson Medical understands that maternity care does not end when a mother leaves the hospital. In order to provide new mothers with the care and nutrition they need, they offer a reliable and delicious confinement food delivery service. With a team of nutritional experts that studies the rich influence of Tradition Chinese Medicine, Thomson Confinement Food Home Delivery Service provides specially cooked dishes that are thoughtfully crafted to aid mothers while they recuperate from pregnancy and childbirth. Their dishes are infused with fresh, carefully selected ingredients and herbs that are served with contemporary tastes in mind without neglecting thousands of years of tradition.

To provide mothers with the best nutrition, the food is served with gourmet Kinmemai Japanese rice. Kinmemai rice has six times more LPS (a natural immune system booster) to help

strengthen immunity against flu, cancers and other infections. It also has the added benefit of being lower in calories. Kinmemai brown rice is also available at no extra cost. Kinmemai brown rice is highly recommended as it is easy on the digestive system and helps mothers to prevent bloating and cramping.

Before all the fathers out there start to feel left out, rest assured that you've not been forgotten. Thomson Confinement Food Home Delivery Service has introduced Daddy's Bento, a 7-day lunch set add-on just for fathers. With delicious and nutritious meals taken care of, fathers can now focus on caring for mummy and baby. Thomson Confinement Food Home Delivery ranges from \$488 to \$1,980 with the add-on of Daddy's Bento Lunch Set at \$118 and only applicable with a minimum of 7-day Confinement Food Home Delivery order.
